NITHISH SUNKARA

Data Analyst | Greater Boston, MA | Open to Relocation
(216) 713-3176 | nithishsunkara.ns@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with a Master's in Information Systems and hands-on expertise in SQL, Python, Excel, and Power BI. Analyzed 9M+ transportation trips and 20,000 synthetic patient records using SQL ETL, data cleaning, and dashboards to evaluate operational trends.

TECHNICAL SKILLS

Programming & Querying: Python, SQL, SQL Joins, CTEs, Subqueries, Window Functions
Data Analysis: Pandas, NumPy, Excel, Exploratory Data Analysis (EDA), Data Cleaning, Data Validation
Data Visualization & BI: Power BI, Tableau, IBM Cognos Analytics, Matplotlib, Seaborn, Dashboards
Analytics & Reporting: ETL, DAX, KPI Reporting, Dashboard Development, PivotTables, Power Query

PROJECTS

Healthcare Operations & Patient Analytics Excel | SQL | Python | Power BI

- Cleaned 20,000 synthetic patient records using Excel, SQL, and Python; standardized categories, validated admission dates, and analyzed operational trends, billing, and patient outcomes across hospital departments.
- Applied SQL CTEs, subqueries, aggregations, and window functions to compare patient volumes, department billing, length of stay, and 30-day readmission patterns across 16 hospital departments.
- Developed three interactive Power BI dashboard pages with KPIs tracking patient volume and outcomes; highlighted a 3.61-day average stay, 15.49% readmission rate, and department-level performance.

NYC Citi Bike & Weather Analysis SQL | ETL | Power BI | DAX

- Engineered a SQL ETL workflow integrating 9M+ NYC Citi Bike trips with historical weather data; cleaned source records, standardized fields, and prepared analytical features for ridership demand analysis.
- Built four interactive Power BI dashboard pages with DAX measures to analyze trip volumes, customer segments, station usage, and weather-related demand patterns across reporting periods.
- Identified 50K+ average daily rides, approximately 12% lower ridership associated with rainfall, and station imbalances; summarized findings relevant to bike rebalancing and demand planning.

Automotive Sales Performance Analysis Microsoft Excel | PivotTables | PivotCharts

- Analyzed automotive dealership sales and profitability in Excel across models, dealers, and reporting periods; evaluated sales trends, profit measures, and differences in dealer performance.
- Built an interactive Excel KPI dashboard with Pivot Tables, Pivot Charts, and filters to compare sales volume, total profit, average quantity sold, and dealership-level performance trends.
- Compared dealership and vehicle-model sales to identify stronger segments and profitable models; presented dashboard findings relevant to inventory planning and management reporting.

EDUCATION

Indiana Institute of Technology | Master of Science in Information Systems Mar 2026
Marri Laxman Reddy Institute of Technology and Management | Bachelor of Technology in Computer Science Engineering Nov 2023

CERTIFICATIONS

IBM Data Analyst Professional Certificate | Generative AI: Enhance Your Data Analytics Career (IBM) | Lean Six Sigma White Belt

VOLUNTEER EXPERIENCE

Data Analyst (Volunteer) | StreetCare Jun 2026 – Present

- Maintained structured Google Sheets datasets for StreetCare reporting, record management, and nonprofit operations.
- Cleaned and validated nonprofit records by removing duplicates, standardizing fields, and checking completeness.
